ALDAR Properties is in the process of developing Al Raha Beach, a real estate development that spreads from the beach side of the main highway that links Dubai to Abu Dhabi. This is one of the largest and most prestigious developments in the whole of the Middle East.

Al Raha Beach will be built over reclaimed land. The development will consist of 11 precincts including marinas, parks, restaurants as well as leisure facilities.

As part of the infrastructure works over 56000m² of high performance structural waterproofing is being applied to various new bridges and interchanges on this large scale project. PmB was selected following extensive analysis and taking into account the 15 year track record within the region.
