Project : Mussafah Bridge,
Location: Abu Dhabi, UAE
Client Department: Emirate of Abu Dhabi Public Works
Consulting Engineers: Rendel Palmer & Tritton
Main contractor: Six Construct Ltd

Description:

This installation was part of a major maintenance rehabilitation of a traffic-sensitive artery to the city of Abu Dhabi. The bridge structure had, over the years, suffered major degradation.

The task was to repair to a high standard and ensure future low maintenance to this vital city link. Over 13,000m² of PmB membrane was installed on the bridge deck to ensure the long term durability of the structure.
