Project : Tyne Bridge
Location: Newcastle Upon Tyne, United Kingdom
Client: Newcastle City Council Engineering Services
Main Contractor: Cumbrian Industrials Limited

Image:
Description:

PmB structural waterproofing membrane was selected for this 8,000 m² contract.

The deck preparation and buried expansion joint were also included within the scope of works which was carried out in 4 phases to maintain traffic flow on the bridge.

The footways received an additional layer of polyurethane (PMV345) resin with 3mm aggregates which provided a chemically bonded key surface for the mastic asphalt overlay materials.
